## Professional Profile

A top-performing Trusted Advisor, Technology Strategist & Architect with experience leading highly effective IT Programs and Projects. A thought leader in Microsoft technologies with a proven track record of successfully implementing business-driven technology architectures in the areas of Solution development, Collaboration, Azure/Cloud and BI/Data Analytics across many sectors including Finance, Banking, Retail, Energy, Technology, Pharmaceuticals, Healthcare, and Automotive.

I excel in harnessing the power of Microsoft SharePoint/OneDrive, Power Platform, Teams, Purview, PowerShell, Azure and Copilot to drive organizational success. I am passionate about leveraging technology to optimize workflows, enhance collaboration, and propel businesses forward.

## Work Experience

### M365 SOLUTIONS ARCHITECT | [ERNST & YOUNG \(EY\)](#) | MARCH 2022 – SEPT 2024

- Worked with many different global clients with large-scale enterprise environments (petabytes of data, million+ sites)
- Collaborated with cross-functional teams to define architecture standards & best practices using M365 & Azure
- Assisted clients with M365 data governance & adoption strategies including strategic planning, security, personas & best practices
- Led migrations to M365, including Exchange, SharePoint & Teams utilizing best practices & minimizing downtime (On-prem, Box, Google Drive, File Shares, other tenants)
- Exchange support & maintenance (Account provisioning, migrations & tenant consolidations)
- Implemented Entra & Intune for improved identity & access management, including setting up multi-factor authentication (MFA)
- Developed technical work products (High-level architectural diagrams, User Journeys, UAT plan, design documentation, admin guide, user stories, ADO, etc.)
- Responsible for various pre-sales/sales work, including SoW, RFP's, RFI's, Proof of Concepts
- Implementation & design of modern communication sites, templates, customer experiences, CoE's (Center of Excellence)
- Developed hundreds of workflows using Power Automate to do a wide array of business solutions (custom connectors, APIs)
- Development of Canvas & Model Driven Apps using Power Apps, Dataverse & SharePoint list form customizations using JSON
- Setup, configured & piloted Purview, CoPilot Studio, Microsoft Viva suite (Connections, Engage, Goals, Insights) & other M365 tools

### COLLABORATION LEAD | [CHRIST HOSPITAL HEALTH NETWORK](#) | MARCH 2019 – MARCH 2022

- Led an internal team of developers responsible for developing collaboration-based solutions (SharePoint, Teams, Power Platform, custom webparts)
- Collaborated with stakeholders to outline technology fiscal plans & shared ownership of overall technology budget & management
- Played a key role in helping to deploy & configure Microsoft Intune/MDM to ensure secure access & management of mobile devices/applications (conditional access, group policies)
- Conducted assessments of existing IT infrastructures to identify opportunities for leveraging M365 services to enhance productivity & reduce costs.
- Built out Azure VMs (Windows, Linux) to test various software(s).
- Lead migration roadmap/effort from a heavily customized SharePoint 2013 environment to SPO
- Migrated on-prem Exchange mailboxes & OD4B files to M365 tenant
- Worked with HR stakeholders to develop a new onboarding & yearly review process using Power Platform & M365 components
- Developed various workflows & Apps using Power Platform

### SR. CONSULTANT | [KIZAN TECHNOLOGIES](#) | JUNE 2016 – MARCH 2019

- Liaised with clients regularly to provide solutions developed through Microsoft development stack
- Architecture of On-premises SharePoint/Hybrid/M365 environments for multiple enterprise clients
- Developed governance frameworks & conducted workshops to train IT teams & end-users on M365 capabilities & best practices
- Built out Azure infrastructure & applications including file storage(s), functions, web hooks, logic apps, & VMs
- Administered and maintained Active Directory services, including user and group management, DNS, DHCP, and LDAP integration.
- Responsible for client migrations, both SharePoint & Exchange

## **SR. SOLUTIONS ENGINEER | [MAGENIUM SOLUTIONS](#) | NOV 2014 – JUNE 2016**

- Collaboration & Managed Services Team Lead
- Architecture of both M365 & On-premises SharePoint environments for numerous clients
- Developed numerous forms using InfoPath & Nintex
- Led SharePoint Server migrations from various versions to newer ones
- Provided tier 3 support for issues, resolving incidents within defined SLAs

## **SHAREPOINT LEAD | [HINSHAW & CULBERTSON, LLP](#) | MAY 2012 – NOV 2014**

- SharePoint Team-Lead with 2 direct reports
- Responsible for firm-wide farm/intranet, enterprise operations & site infrastructure including day-to-day admin tasks
- Handshake software integration & skin design for financial dashboards across data sources
- Supervised rollouts, implementations, & upgrades (CUs, Hotfixes, Service Packs)
- Creation of various InfoPath forms including governance forms, PTO forms, Database forms, HIPAA forms & others

## **PROJECT LEADER, SHAREPOINT & WEB APPLICATIONS | [CHIQUITA BRANDS](#) | JANUARY 2012 – MAY 2012**

- Directed the planning & management of software for public facing website, including consultants, cost & budget
- Responsible for deployment of custom solutions, maintenance of farms, team sites, collaboration sites, site collections
- Daily administration of a 10,000+ user 2007 SharePoint environment
- Migration of multiple site collections from 2007 to 2010

## **CONSULTANT | [SOGETI USA](#) | AUGUST 2010 – DECEMBER 2011**

- Client facing analysis; requirements gathering, wire framing, migration roadmaps, operation & governance plans
- Designed & developed custom InfoPath forms, workflows & master pages
- Proficient in PowerShell scripting for automation & administration tasks
- Configured & set up Active Directory, Exchange Server, Project Server

## **Education**

### **BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY | 2008 | UNIVERSITY OF CINCINNATI**

- Major: Web Development
- Minor: Digital Media
- 5-year degree with Co-Op experience from an accredited university

## **Technical Proficiencies & Abilities**

### **MICROSOFT & CLOUD**

- Microsoft 365, Azure, AWS, SharePoint Server, Exchange Server, Power Platform, Entra, Dataverse, Azure DevOps, Power BI, Purview, Defender, Microsoft Graph, Viva/Engage, Logic Apps, Data Governance (IRM, DLP, etc.)
- Teams, OD4B, Forms, Power Automate, Power Apps, Power BI, Delve, CoPilot, Lists, SharePoint Premium (Syntex), Purview, SharePoint Designer, SQL Server, Windows Server, InfoPath, Project, Active Directory/ADFS, IIS, SOAP Web Services, DNS
- Architecture, Migration, Installation, Configuration, Upgrade, Customization, Taxonomy, Metadata, Content Management, Containerization, Disaster Recovery, Infrastructure as Code, Modern Intranet/Communication Sites

### **APPLICATIONS**

- ShareGate, Microsoft Migration, BitTitan, ShortPoint, Nintex, AvePoint, Quest, Visual Studio, Docker, Handshake Software, Adobe Suite, Clearspace, WordPress, TOAD, Aderant CMS, JIRA, Lotus Notes

### **LANGUAGES**

- PowerShell, Azure Cloud Shell, Python, HTML, CSS, SPFx/PnP, XML, JSON, XSLT, C#, JavaScript, SQL

## **Certifications**

- **MCSA**
- **Nintex Certified Solutions Professional** – SharePoint & Microsoft 365
- **AvePoint Certified** (Sales Professional, Technical Associate - Fly)
